1999 CHEVROLET Tahoe 5 doors OEM Service and Repair Workshop Manual

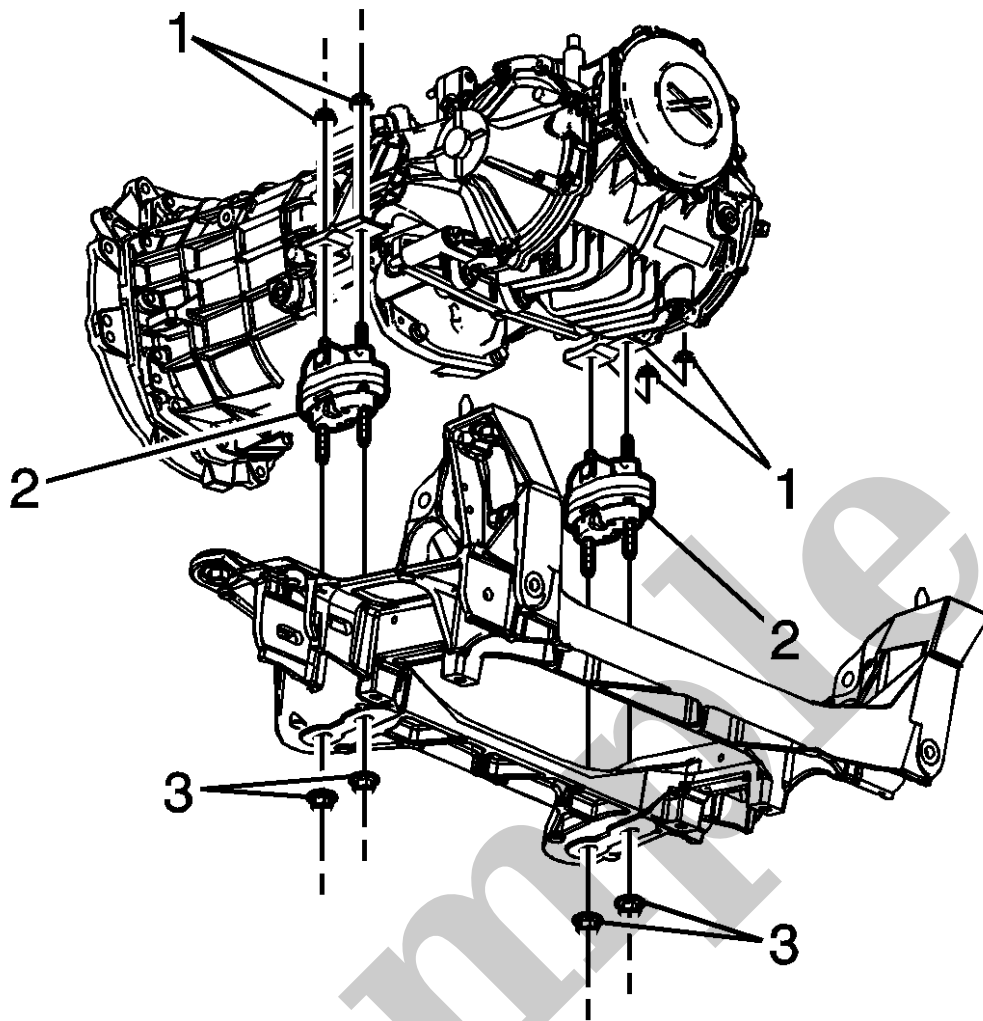

[Go to manual page](#)

28.

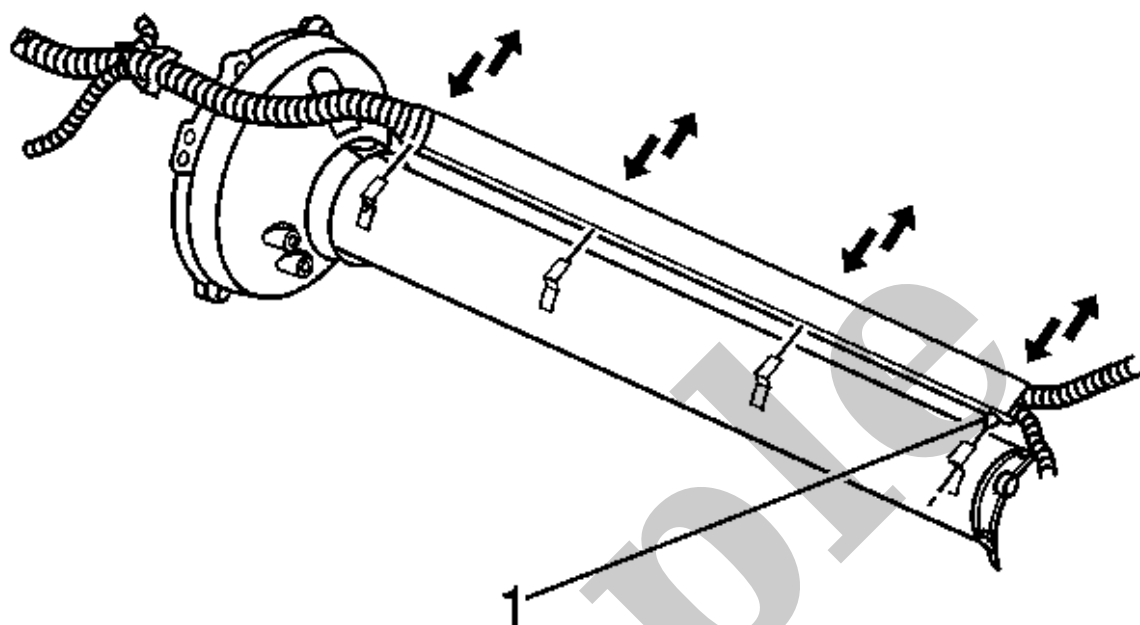

Position a transmission jack under the rear suspension crossmember and firmly secure the crossmember to the jack.

29. Using ONLY HAND TOOLS, remove the rear suspension crossmember retaining nuts.

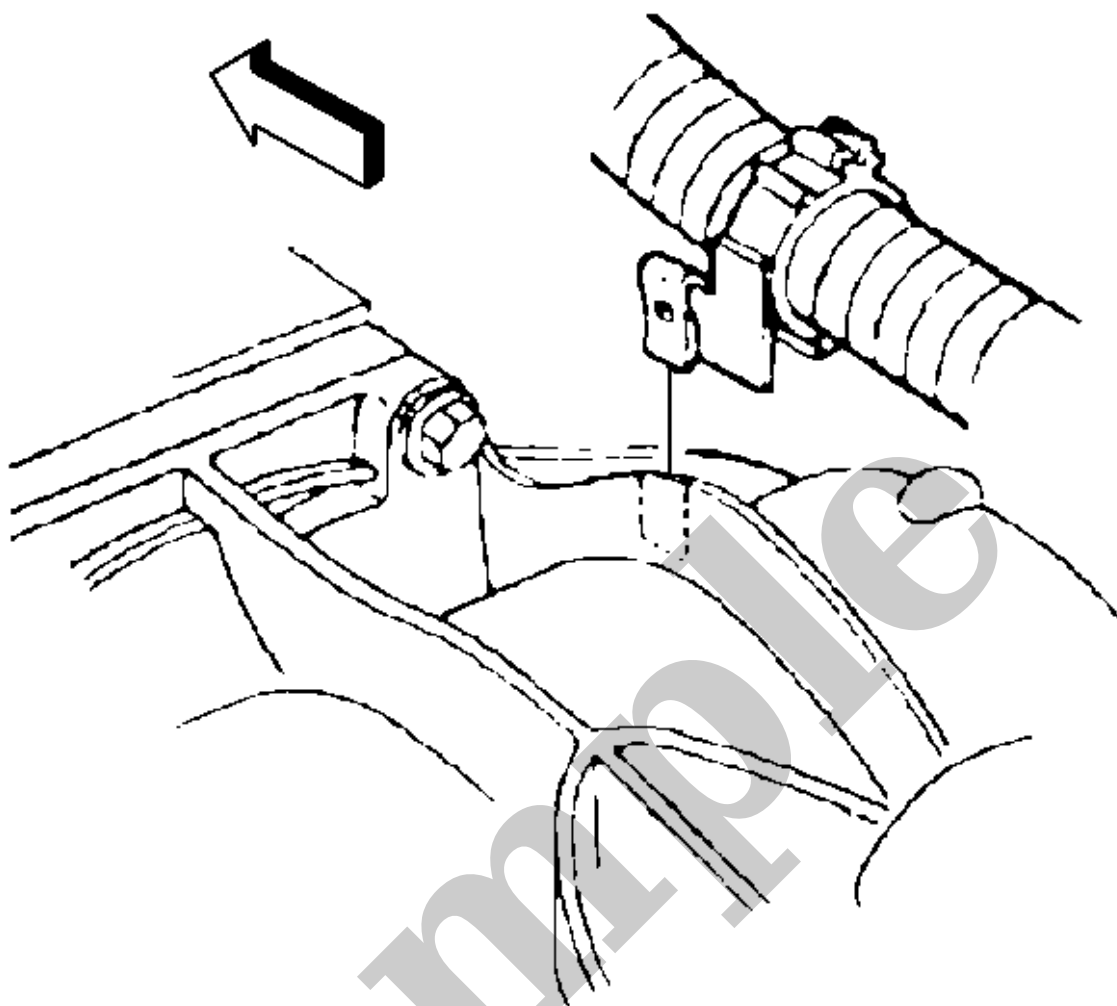

31.

Remove the transaxle mount (2) to differential nuts (1).

34.

Release the retainer (1) securing (and positioning) the wiring harness to the L-shaped brackets along the driveline support assembly, then slide the harness up out of the brackets and position out of the way.

37.

Disconnect the wiring harness retainer from the stud at the differential rear cover.

38. Disconnect the wiring harness retainer clip from the top of the differential.
