Precautions For Harness Repair

RDE-001899112

CAN communication uses a twisted pair line. Be careful when repairing it.

- Solder the repaired area and wrap tape around the soldered area.

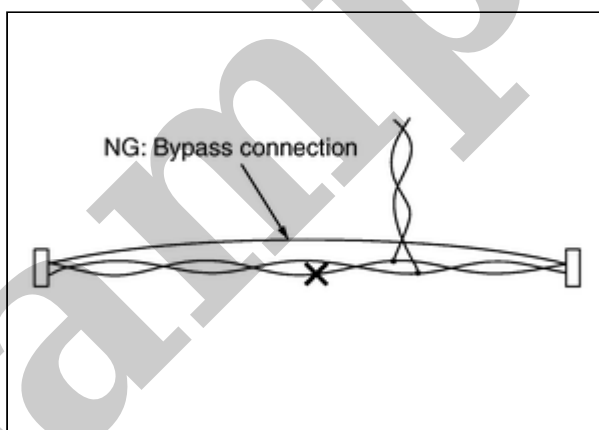

RDE-001502441-01-KIB8766E

NOTE:

A fray of twisted lines must be within 110 mm (4.33 in).

- Bypass connection is never allowed at the repaired area.

RDE-001502441-02-KIB8767E

NOTE:

Bypass connection may cause CAN communication error. The spliced wire becomes separated and the characteristics of twisted line are lost.

CAUTION:

- **Do not use distance sensor removed from vehicle. Never disassemble or remodel.**
- **When replacing the distance sensor, perform radar alignment.**
