Connect the connector.  
Install the clip(s).

**NOTE:** *Test drive where other traffic will not be disrupted*

The test drive must include at least one right-hand and one left-hand turn (more than 45 degrees), at least a 100 meters stretch and a braking from 50 km/h to rest with ABS control. The test is passed if the DSTC system does not illuminate any lamp (Warning lamp for wheel spin, ABS lamp or the general brake warning lamp).

**NOTE:** This color chart displays (in color print and electronic version) the importance of the different colors used in the images of the method steps.

1. Used for focused component, the component with which you will do something.
2. Used as extra colors when you need to show or differentiate additional parts.
3. Used for attachments that are to be removed/installed. May be screws, clips, connectors, etc.
4. Used when the component is not fully removed from the vehicle but only hung to the side.
5. Used for standard tools and special tools.
6. Used as background color for vehicle components.

#### **ACCESSORY INSTALLATION**
